CORE COMPETENCIES

Tactical Medical Consultants partners with individuals and organizations to increase their efficiency, safety, and medical readiness while ensuring compliance with necessary regulatory requirements.

We provide support to small and medium sized business with consultation, training and certification courses so they may maintain their medical readiness and deployability.

Following an initial evaluation and consultation Tactical Medical Consultants assists in planning, creating, and designing a tailored made process for best management practices. We help your organization implement these processes, and also provide the necessary training for member success.

DIFFERENTIATORS

- Proven integrity in every aspect of our operations.
- Responsive to urgent needs pertaining to compliance in training and readiness.
- Understand many of the unique training and readiness requirements to effectively do business with the government.
- A trusted source for providing evidence based content that is relevant to present practice.
- Seamless support to organizations through people-oriented approaches to solve challenges they face.

PAST PERFORMANCE
